SYLENT

Peak Time Techno · Germany

Sylent builds peak-time techno sets with a musician's ear for rhythm and a DJ's instinct for timing. Piano, trumpet and hip-hop production form the foundations of an approach that found its direction in Berlin's club culture.

A visit to Berlin's KitKatClub in 2009 marked a turning point towards techno. After four years in Berlin, he returned to Karlsruhe and continued developing his sound behind the decks.

His performances span clubs, festivals and parades. Across these settings, he adapts the pace and selection to the room while maintaining a direct, energetic approach to techno.

PERLA NERA

Hypnotic · Techno · Singer · Songwriter · Germany

Perla Nera – The black pearl of electronic music, blending dark aesthetics with relentless energy.

Originating from the vibrant underground scene between Gießen and Frankfurt, she has quickly evolved into a recognized name across Germany, bringing her distinctive sound to stages in multiple cities nationwide.

Perla Nera's musical identity is progressive, driving, and multifaceted—fluidly navigating the spaces between pounding Hard Techno, rolling Hardgroove, and euphoric Trance. Far more than just a selector behind the decks, she is a complete artist and producer who composes her own productions and infuses them with her own vocals, creating an unmistakable sonic signature.

Her dedication to the craft is deeply rooted in traditional club culture: At Frankfurt's renowned MOMEM (Museum of Modern Electronic Music), she passes on her expertise, teaching the art of vinyl mixing on turntables.

Whether commanding peak-time dancefloors or sharing her knowledge at the decks, Perla Nera represents raw authenticity, analog precision, and a sound that leaves a lasting impact.
