BIOGRAPHY

BODENLOS

BODENLOS – German for “bottomless” – is the project of a DJ from Germany who strips Techno Bounce down to its essence: pace, pressure and movement.

His sets live beyond 145 BPM. Short, dry kicks collide with distorted, rolling basslines and grooves that bounce rather than float. Tension doesn’t come from drawn-out breakdowns but from friction – and from those seconds when he pulls the kick and the room itself keeps time.

Visually, BODENLOS deliberately stays in the background. No staged face, no pose: the focus is on the sound and the people in front of it. With the set series FIRST KICK, he documents his signature in real time – raw, direct and without detours.

BODENLOS is available for clubs, raves and festival stages – booked exclusively through Nachthall Agency.
