BIOGRAPHY

KORENTO

DJ KORENTO aka Jenni Korento-Salmi (TesseracTstudio) is one of Finland's most established female psytrance DJs. With more than 20 years of experience in the festival industry, she has built her path at the heart of the Finnish psy scene.

Her DJ journey began in 2010, first playing at underground parties and clubs in Helsinki and across Finland. For the past decade she has also been a familiar name at Kosmos Festival, working as a booking manager and leading her own stage manager team there.

The name Korento means "dragonfly" in Finnish – and Jenni truly embodies this spirit: light, graceful, but also powerful. Behind the decks she delivers full-on energy with groovy, uplifting and intelligent beats, always with a slightly dirty edge. Her sets are dynamic and charismatic, reflecting both her love for music and her passion for creating unforgettable dancefloor moments.

Jenni is also known for her strong visual identity. She embraces festival spirit through her outfits, often created in collaboration with underground designers.

Korento has performed at Vortex Parallel Universe South Africa, Shankra Festival, Respect Festival and other events across Brazil, as well as Half Moon Festival.
